Personal website: <https://dm.basabaribd.com>

Skills:

HTML, HTML5, CSS, CSS3, JavaScript, jQuery, Bootstrap, Ajax, MySQL, PHP ,Laravel and Wordpress.

Project 1: Student Management System

Student Management System is the one of the biggest project of mine. How to maintain an University or Nursing institute, this project will help to maintain. Every form of this project is valid. You can't send any type of data or unlimited text size. i have validated the every form with some logic. i have used Ajax request to see live action. No need to reload page.

Here is the some Feature of University Management System:

1. Login System for Admin
2. Add Department
3. Add Course
4. Add Teacher (Unique Email)
5. Register Student
6. Assign Course
7. Allocate Classroom
8. View All Department
9. View Courses by Department
10. Course Statics by Department
11. View Class Schedule

13. Student Profile
14. Class Routine
15. Exam Routine

See Live Here <https://student.bdabsl.com> (Username: admin, Password: shahin)

Project 2: Service Application Development

Service Application is based on post to-let and get to-let. i have build this service application for rent house . I have used here modern technology php framework laravel. By the mean time laravel is the most popular framework for php. Here is the some feature of service Application:

1. Sign Up System with Validation
2. Login System
3. Profile
4. Post To-Let
5. Find To-Let
6. Edit Post
7. Delete Post
8. Contact Form
9. Logout

See Live Here: <https://basabaribd.com>

Project 3: Wordpress Theme Development

Blog Application page . Post blog and edit blog , category , comment section. I have used totally row php .

1. Admin panel
2. Post Blog
3. Edit post
4. Delete post
5. Image upload
6. Comment section
7. Search blog
8. Date
9. Category

See Here: <https://github.com/Shahin1993/Blog-php>

Project 4: Wordpress Theme Development

Wordpress theme development is one of the best projects i have ever done. It was an awesome project for me and i have successfully done this project. here is some functions of Portfolio Creative Wordpress Theme Development Project:

See Here: <https://gitlab.com/Shahin1993/wordpress-themdevelopment>

Project 5: Blog Application Development

Blog Application is based on Ask Question and get reply. i have build this blog application to ask any question and to get reply. I have used here modern technology for Database called PDO. By the mean time PDO is the most popular for Database. Here is the some feature of Blog Application:

1. Sign Up System with Validation
2. Login System
3. Dashboard
4. Ask Question
5. Reply Question
6. Edit Question
7. Delete Question
8. Most Viewed Question
9. Logout
